

Flavio Students

Students out of high school, aircraft and factory workers, office workers, salesmen and saleswomen, typists, skilled and unskilled persons look to Flavio Beauty Colleges for a happier, more respected, higher-income profession, after as little as nine months of training in our day or night classes.

Success Story

The Flavio Beauty Colleges feature ultra-modern classrooms for facial and theory study, and spacious practice areas for styling, tinting, cutting and permanent waving. Buildings are sound-proofed and completely air conditioned for the students' comfort and convenience.

In the last five years, approximately 500 students have obtained actual practice in our main styling area, after their freshman training—another page in a Flavio-trained Students Success Story. Classes are open to students day and night.

An annual highlight in the life of Flavio students is the Alumni and Student Contest, held this year on January 27th.

Winner of over 40 awards in open competition, including 12 grand awards, he is the past president of the Los Angeles and Hollywood Hair Stylists.
